Skin Resurfacing

Microdermabrasion

Stimulate collagen production with micro exfoliation, with little to no discomfort or downtime. Unlike deep peels, one of the benefits of microdermabrasion is the ability to go straight back to work without any down time. Total time for treatment is 30-45 minutes and can be done on a lunch break. The results are instantly smoothed skin. Microdermabrasion reduces scarring, reduces fine lines and acne.
\$65

Glycolic Acid Chemical Peels

Recommended for sun-damaged, hyper-pigmented (brown spots), wrinkled skin. Assists in smoothing superficial wrinkles, reducing pigment disorders.
\$65

Body Treatments

Inch loss Seaweed Body Wrap

Visual slenderizing of the body, and reduces the appearance of stretch marks and cellulite. Lose 6-10 inches in one hour. We guarantee 3-5 inches or your next one is free.
